

Chapter 7: Help Function

Located in the eCornerstone Navigation Menu, the Help option provides access to resources:

Clicking on the Help menu window will open a new window, which provides links to eCornerstone Application Updates (version notes), and the eCornerstone Reference Manual.

Refer to the System Update section of the **System Environment** chapter for information regarding eCornerstone Application Updates.

The eCornerstone Reference Manual will always be updated in conjunction with the deployment of a new version. In addition, periodic updates may also be made to the manual to provide additional information as deemed necessary, to update forms, etc. To ensure the most up-to-date information is being used, do not save the manual to a workstation. Instead, the manual should always be accessed via the Internet. Refer to the eCornerstone Reference Manual section of the **System Environment** chapter for information.
