AGENCY PROFILE

Provider Information an address or phone number for a provider will not be allowed to be deleted if either one is the only address or phone number for that provider. Refer to screen prints below.

YOUTH SERVICES

Inactive Workers will now be displayed where necessary and not displayed when not needed. This change will apply to such areas as Assignment Flows, any page that utilizes a drop list of worker names, Time Activity, Worker Administration, etc. Any worker made 'Inactive' by a Security Coordinator will not be able to log in to eCornerstone until that person is made 'Active' again.

The **Transfer Worker Caseload page** will have some visible changes to it in order to distinguish between 'Inactive/Active' workers and 'Terminated' workers. See screen print below.

The **Participant and Worker Time Activity pages** will now generate a validation message if the worker selected was 'Inactive' on the selected date. See screen prints for each below.

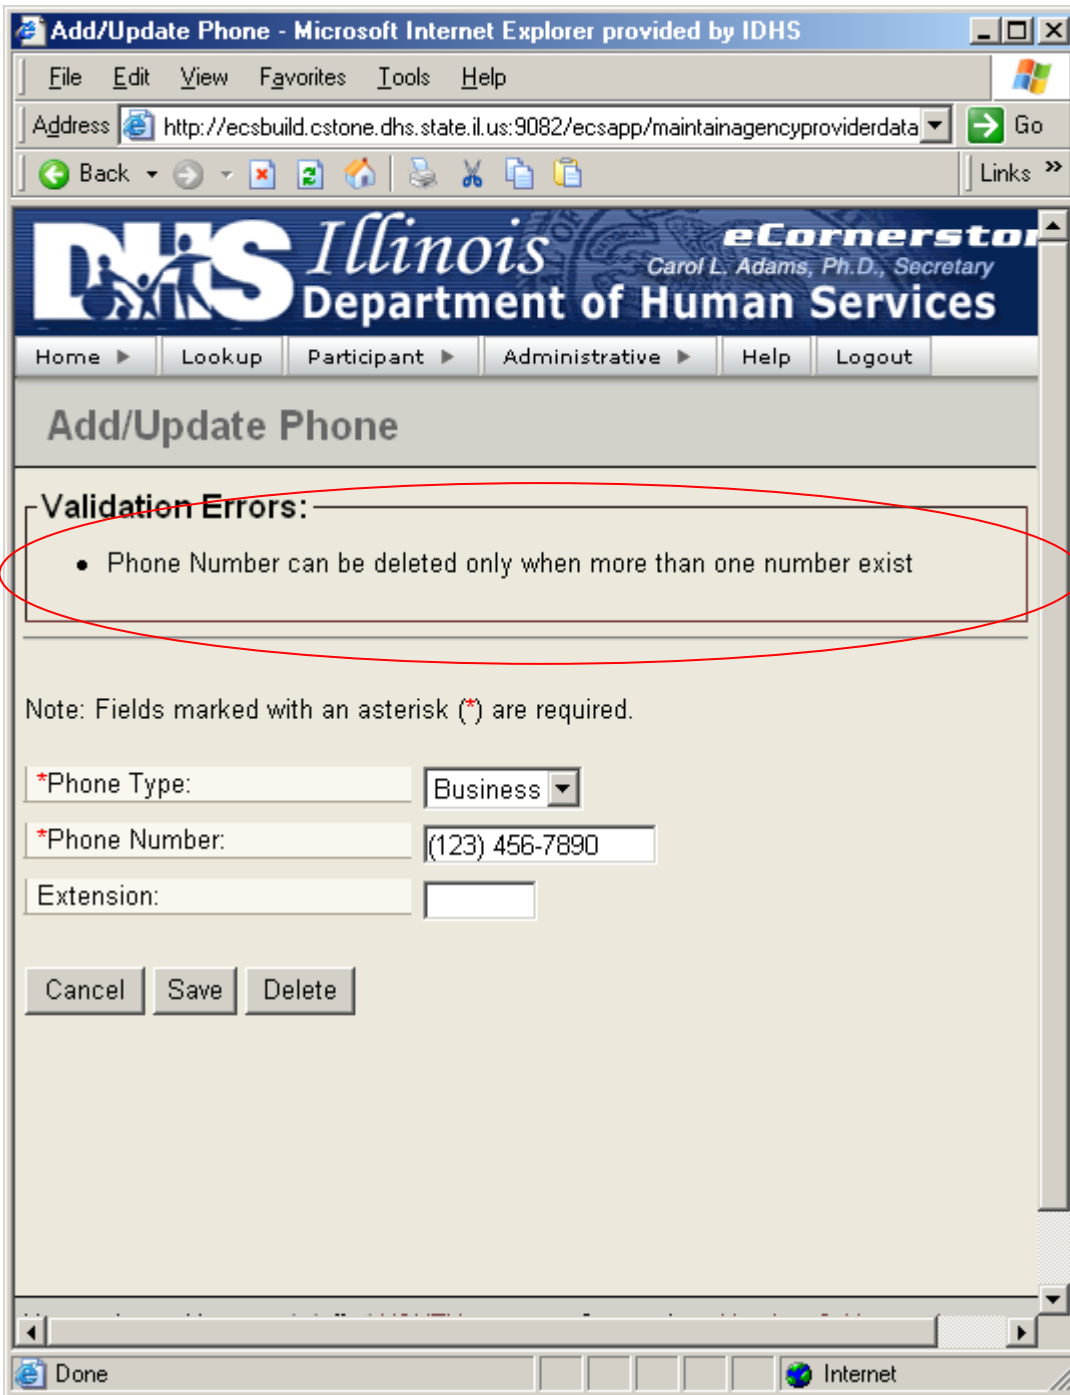

The **Number of To Do messages** usually displayed on the Home Page will be removed temporarily due to some database issues. When resolved the quantity will be added back.
