### **Miscellaneous Modifications**

The eCornerstone system has been modified so that **completed action steps will no longer generate an Action Step Review message on the To Do List.**

eCornerstone now accommodates the **Crossroads and Juvenile Intervention programs.** Functionality for enrollment into these programs remains the same as other Youth Services programs; however, the enrollment status for participants enrolled in either of these two programs will initially be "Pending". Additionally, Security Coordinators will need to utilize the User Administration application to update the Program Data authorizations for Crossroads and Juvenile Intervention program workers.
