GENERAL INFORMATION

- General changes to the application are organized according to the eCornerstone menu, followed by changes specific to each program.
- The **eCornerstone Reference Manual** has been updated with all modifications and enhancements outlined in this document. The Reference Manual can be found by selecting "Help" from the menu, or selecting the "Reference Manual" link under the User Help section on the Home Page.

PARTICIPANT MENU

- **Participant Address Now Required for Enrollment:** The system has been modified so that when adding a program enrollment, the participant must have at least one address entered into the eCornerstone system. If the program enrollment is attempted without a participant address, a message will be displayed on the Add Enrollment – Program Selection page indicating the participant must have an address in order to be enrolled in a program.

The address to be used is the address of the participant at the time of enrollment. This requirement will only affect new participants. However, the system will now prevent the deletion of the only or last address available for those participants that are current and actively enrolled.
